Digital Social Science Lab (DSSL) is an open platform for education and events focusing on digital methods in social sciences. Equipped with 3 projectors and powerful iMacs and PC workstations with preinstalled software, the lab is ready for the exploration of social scientific data.

The dynamic and aesthetically inspiring learning environment of DSSL is also available as a free workshop space for UCPH teachers and students, who are organising workshops and events.

Don’t hesitate to get in touch with us, if you want to get involved in co-creating the DSSL environment!
